

STORM COMMANDER™

WEB DASHBOARD

Get access to real-time data points, GPS tracks, dash cam feeds, on-site Mini RWIS cameras, and diagnostics, all in one web dashboard.

SWIFT-ASSIST™ DIAGNOSTICS

Access on-demand help and speed up field repairs with real-time controller diagnostics.

AIR-TETHER™ WIRELESS CONTROL

A fully wireless in-cab connection makes this unit easy to install before an event and more rugged than wired units.

Optional CLOUD-INTEGRATED HD DASH CAM

Integrated dashcams give you live feeds of roads, properties, spray patterns, and drivers. Instant cloud backups archive your footage for later use in billing disputes and litigation defense.

POINT-LOCK™ GPS TRACKING

See where your trucks go in real time and save routes for billing and litigation protection.

RUGGED-SWITCH™ INTERFACE

Built around tough buttons and toggle switches that respond to every command, gloved or not, even on the coldest nights.

BUILT FOR SNOWFIGHTING™

This unit was built from the ground up for winter and displays the data you need for efficient operations, as well as billing and liability protection.

INSTANT-SYNC™ WEB CONNECTION

Operational data gets uploaded to the cloud in real time.

YOUR IN-CAB COMMAND CENTER

The Storm Commander™ gives you the real-time data you need to beat the billing disputes, frivolous litigation, and logistics breakdowns. It tracks application rates, GPS tracks, and much more, and it backs it all up to an easy-to-use web portal. And it all comes in a rugged wireless package, complete with physical buttons and steel switches.
