

BRINE TRANSPORT TANK

CAMION®

ROTO-MOLD™ CONSTRUCTION

When cooked and cooled at an even rate, the raw material is bonded together to make this tank virtually indestructible.

PIN-MOUNT™ SYSTEM

The molded-in mounting lugs combined with heavy-duty steel pins will keep this tank fixed without movement.

LIFTING-LUGS™

Built-in and engineered to take the dry weight of the tank, these make lifting the tank on and off the trailer a breeze.

THICK-WALL™ DESIGN

Extra-thick walls provide unmatched strength and durability.

ANTI-SPLASH™ STAINLESS LID

Lockable and spill-proof, this lid keeps liquid in while traveling on rough terrain.

(Only on tank 1,600 gallons or larger.)

SINGLE-PIECE™ CONSTRUCTION

Rotationally-molded in a single mold means that the tank is seamless, water-tight, and leak-proof.

THE MOST SECURE TANK ON THE ROAD

Other drivers can't miss our high-vis orange tanks. Baffle balls keep unpredictable sloshing to a minimum, and our patented pin-mount system is a safer, maintenance free alternative to finicky mounting and bands.

*Baffle balls are optional.
